Lyon College Teacher Education

Dear Future Teacher:

Welcome to Teacher Education at Lyon College! I hope you will find it an exciting place to be. Lyon College has reshaped the traditional way of preparing teachers. Our program, which is accredited by the National Council for the Accreditation of Teacher Education (NCATE), requires teacher education students to complete a major in one selected from most of the liberal arts disciplines while also pursuing their education studies. The mission of the Lyon College teacher preparation program, developed with colleagues from our partnership school districts is: "The Education of the Whole Person BUILT on the foundation of Liberal Arts."

As you progress through the program, you will develop competence by gaining expertise in a content area and then build on that by learning about education theory and its application. You will work with faculty, mentor teachers, children, and your fellow students to learn how to teach.

This handbook was designed to provide you with information you will need regarding our policies, procedures, and requirements. Please keep this handbook as a reference throughout the program. If you have questions, please contact your education advisor or the Director of Teacher Education.

The faculty and staff are pleased you are here, and we want your experience to be a positive one. We look forward to helping you become a teacher who goes out and makes a difference!

Sincerely,

A handwritten signature in cursive script that reads "Kimberly Crosby".

Liberal Arts Teacher Education Committee

The Teacher Education Program at Lyon College values its strong relationship with surrounding school districts. These strong relationships give us significant input from school-based practitioners into the work of the Liberal Arts Teacher Education Committee. This committee serves as a policy-making and advisory group for the Lyon College Teacher Education Program.

Partner School Districts

Lyon College places candidates with qualified mentor teachers in three partner school districts: *Batesville, Southside and Cave City*. Lyon will consider placing candidates in other districts if an experienced teacher is available to collaborate and an agreement can be reached with the district.

The student internship experience is the culminating activity for teacher education candidates. The application in the classroom of methodology and learning theory is for many the highlight of their college years of coursework. ***The time spent with mentor teachers is invaluable*** in providing models that will be the basis for developing individual philosophies and personal conceptions of what education for all children ought to be.

LYON COLLEGE

CONCEPTUAL FRAMEWORK *for* TEACHER EDUCATION

*The Education of the Whole Person BUILT
on the Foundation of Liberal Arts*

BE wise consumers of
education research

UNDERSTAND and address inequities in
the classroom as they relate to race,
gender, and social class

INSTRUCT using technology skills

LEAD in the continuous improvement
of schools

TEACH effectively at the appropriate instructional
level

THE LIBERAL ARTS FOUNDATION

*Lyon College teacher education candidates should be
liberally educated and take liberal arts knowledge, skills
and dispositions into the classroom.*

LYON COLLEGE TEACHER EDUCATION PROGRAM CONCEPTUAL FRAMEWORK

Our Mission

*"The Education of the Whole Person **BUILT** on the Foundation of Liberal Arts"*

Our Vision

We believe that each child, regardless of gender, race, creed, family background or socioeconomic status, has a right to be taught by a qualified teacher, a teacher who can help each child become all he or she can become. Our intent is to create a program for teachers that will bring that vision into practice.

Grounding the Vision

Our vision is grounded in the principles that follow:

1. Qualified Teachers Need a Liberal Education.

Sharing the NCATE vision of qualified teachers, Lyon College insures that its graduates, who become licensed teachers, have completed a liberal education by requiring them to major in a liberal arts discipline while completing a liberal general education program. We believe that liberally educated people are, as the college mission states, "thoughtful, inquisitive, critical and creative" men and women with ingrained "habits of reasoned thought," and virtues of "honesty, fairness, and respect" for others. Lyon wants candidates with these dispositions to become teachers and future leaders in our schools.

2. Qualified Teachers Need Pedagogical Skill.

Evidence shows that subject matter knowledge is not enough for effective teaching. Teachers must also understand and be able to apply the growing knowledge base of pedagogy. Accordingly, the heart of our teacher education program is a series of observation, participation, and internship experiences that will prepare better practitioners.

3. Qualified Teachers Need to Model and Encourage Critical Thinking.

Learning to think critically enables children to become responsible citizens able to respect differing points of view and to appreciate the contributions of diverse peoples. Liberally educated teachers provide children with an academic foundation that cultivates their critical thinking skills.

- What characteristics do you possess which you feel will make you an effective teacher?
- What do you see as three of your strengths?
- What are three areas that you need to improve in?
- What are some non-teaching duties a teacher must perform? How do you feel about these responsibilities?
- Do you have any reservations about teaching and what are they?
- What concerns you the most or makes you anxious about teaching?

The Student Internship

Goal

The goal of student internship is to provide the pre-service teacher with a realistic experience in planning, managing, and teaching in an early childhood or secondary classroom.

Objectives

At the end of the student internship, the student intern will be able to:

- Identify individual learning needs.
- Plan and teach lessons at the appropriate level.
- Guide and direct learning in a classroom by using a variety of techniques.
- Evaluate student learning and progress.
- Report student learning and progress to parents and administrators.
- Demonstrate professional work habits, ethics, and relationships.

Activities

In order to accomplish the above objectives, the student intern shall:

- Participate daily, Monday through Friday, in his/her placement.
- Assist the classroom teacher in organizing and preparing a classroom.
- Gradually assume responsibility for teaching the various subject areas.
- Assemble teaching units and write daily lesson plans.
- **Assume full classroom responsibilities for at least two weeks of the internship.**
- Participate in all activities expected of the classroom teacher each semester.
- Adhere to district policies for certified faculty including the ones **concerning the times to arrive at and depart from schools.**
- **Students are required to put in a minimum of 16 clock hours a week at the school and should document it in schedule planning.**

Student Internship Observations

There are two different types of observation to be conducted during the internship experience: you will observe your mentor teacher and you will observe other teachers in a different education setting. The observations of other teachers will be arranged by you, your mentor, and your University Supervisor. When possible these will include traveling to model schools for a different perspective on education. You will need to write a reflection paper for each of the observations outside of your mentor teacher's classroom. More details about this will be given in your internship seminar.

At the beginning of the school year, you will spend a good deal of time observing your mentor teacher. Following the first week of observation of your mentor, you will simply record your time.

In-depth Student Study and IEPs – FALL SEMESTER

Rationale: An in-depth study of one pupil enables the student intern to focus intensively on one individual for the purpose of knowing that individual better and enabling the intern to understand the multi-dimensions influencing that pupil's growth or lack thereof in the classroom. In-depth studies provide a wealth of detail and are, therefore, rich in possible insights. However, the interpretation of in-depth studies depends on the wisdom as well as the biases of the interpreter. The study enables the intern to observe a pupil in a school setting and to observe how he or she changes over time.

Purpose: To give the student intern a holistic view of a pupil and to enable the intern to design an individualized program for the pupil.

Components of the study:

The study should include:

1. A description of the pupil including age, physical appearance (height, weight,) unusual aspects, (e.g. any form of exceptionality, ethnicity, age, etc.) The pupil should be anonymous, e.g. John S. or Mary K., using fictitious names.
2. A description of the setting, e.g. third grade, self-contained classroom in X school in X district or 4th period Science class at X high school in X district.
3. A comparison of the pupil in regard to others on the elements in # 1., e.g. taller, shorter, older, younger, etc.
4. A description of how the pupil relates to peers. To teachers. Is the pupil an isolate or well accepted by the group? Does the pupil have just one special friend or a group?
5. A description of the external appearance of the pupil's home. You can achieve this simply by driving by and observing the home and the neighborhood. What inferences can you make from this observation?
6. Naturalistic observations of the pupil over time. This can be brief notes on the pupil's behavior, performance in class – good days, bad days, absences, interactions with other students and teachers. If possible to observe the pupil's eating habits (e.g. in the cafeteria), this will provide you with some relevant data. Find out if the pupil has hobbies or collects certain things, e.g. stamps, coins, etc. What kind of music does the pupil like? What does he or she like to do in his/her spare time?
7. Conclusion: Based on your in-depth knowledge of this pupil, make recommendations for assuring this pupil's success in the classroom. Identify any special strategies you, the teacher, would use to help the pupil achieve success.

More details about this assignment will be given in your internship seminar.

Suggested Procedure for the Student Internship Period

Student Interns will receive eight (8) credit hours for the internship experience spread over an entire academic year. Interns continue to take courses at the college while teaching part-time in the public schools.

Each intern and mentor teacher will work out **an individualized program** depending on the public school and college schedules. The individualized program must include daily classroom involvement Monday through Friday unless an alternate schedule is approved by the Lyon Supervisor and the partnering Mentor Teacher. Student Interns may work out schedules in a variety of ways pending approval by the University Supervisor. A completed schedule is to be filled out at the beginning of the internship year. A copy of this schedule should be given to the mentor teacher, a copy to the University Supervisor, and a copy should be placed in the Assessment Portfolio.

Student interns will start the internship year with "**Starting the School Year**" which means that they will begin when public school classroom teachers do. They will remain in the classroom **full time** for the first weeks of the K-12 calendar, **keeping the same hours on campus as their mentor teacher**. After these initial weeks they will begin classes at Lyon College and will continue with their individualized internship programs according to the schedule they have worked out. If there is a day when Lyon classes are cancelled, but the public school is open, the student intern is expected to be at the school for the full day. Interns are expected to be ready to start their placement one full week before the first day of classes on the public school calendar.

Responsibilities for Student Internship

The student internship is a cooperative venture involving a number of people. Following the student intern's request for placement, a Teacher Education faculty member makes the initial contact with a partner school district administrator who has the responsibility for making student intern assignments. That administrator, in consultation with district principals and teachers, finalizes the field placements. The student intern signs a contract (see Appendix). Then information delineating roles and responsibilities for the student internship is distributed to all personnel participating in the student internship experience. At the end of the experience an honorarium is sent by the College to the teacher for each student intern.

The College Supervisor

Each student intern is supervised by a Teacher Education faculty member, who is called the Supervisor. The Supervisor makes a preliminary visit to get acquainted with school personnel and to see that the principal(s) and mentor teacher(s) understand procedures for the student internship period. At the time of the preliminary visit, the Supervisor may be able to set a time for the first full visit. The Supervisor will visit the student intern **at least** three times each semester. **In the secondary concentration, at least one visit during the internship will be made at the discretion of a faculty member from the intern's major area of study.** In the early childhood education program, however, a visit by a faculty member from the intern's major area of study is optional. During each visit, the Supervisor will complete an Observation Form (see Appendix) which will give feedback regarding the intern's performance. One copy of the form will be filed in the student intern's electronic Assessment Portfolio.

Throughout the semester the College Supervisor will confer regularly with the mentor teacher, student intern, and members of the internship team about the experiences and progress of the student intern. **The Supervisor should be called immediately by either the mentor teacher or student intern when problems arise.** Talking the problem through may prevent future problems.

The Principal

The principal will work with the mentor teacher(s) to help provide a good experience for the student intern. The principal should make decisions regarding the student intern's participation in in-service, staff meetings, and parent-teacher conferences. **Interns are expected to participate in all activities required of the mentor teacher.** The principal may give the student intern helpful feedback by making a formal evaluation during the teaching of a lesson. Additional help may be given by discussing criteria used when hiring teachers or conducting a mock interview.

The Mentor Teacher

Student interns work collaboratively with their mentor teachers, those teachers to whom student interns are assigned. Usually, the mentor teacher has at least three years experience in the District and some education beyond the bachelor's degree. The mentor teacher has the dual role of being responsible for the instructional program for pupils while serving as mentor for the student intern. While the role of mentor is of utmost importance, the College recognizes that the first responsibility of the mentor teacher is to the pupils in his or her classroom. The College reserves the right to remove the student intern if the situation does not seem to be serving the best interests of the pupils in the classroom and/or the student intern.

Evaluation

The mentor teacher is responsible for evaluating the student intern. Evaluation should be a continuous process with feedback given to the student intern **on a regular basis through weekly conferences**. Mentor Teachers will also assist in grading the intern by completing disposition surveys electronically or on paper on a monthly basis coinciding with each visit by the College Supervisor. The survey results will be factored into the intern's grade for the internship and will be placed in the student intern's electronic portfolio. A "Final Report" that also factors into the intern's grade (see appendix) is to be sent to the College at the completion of the student internship. This final report is also completed via electronic survey.

The student internship credit at Lyon College is on a letter grade basis and final determination of the grade is made by the Education Concentration faculty with the above mentioned input from the partnering mentor teachers.

Lyon's Suggestions to Your Mentor Teachers

Determining just how to ease the student intern into actual teaching requires some planning and must be done on an individual basis, however some suggestions include the following:

1. The internship will consist of **8 credit hours with a minimum of 480 clock hours (240 per semester)**. Interns will participate in approximately 300 hours of actual teaching, which includes classroom instruction for individuals, testing & tutoring, and work with small groups. (Time spent grading papers and planning **may not** be counted as internship clock hours.) One credit hour will be earned for every 60 clock hours of internship. **Interns should complete a minimum of 240 clock hours per semester. (NOTE: Interns with special scheduling needs may request permission to "bank" hours in the fall semester. The request must be made in writing to the Director of Teacher Education, and decisions will be made on a case-by-case basis.)**
2. So that student interns can become acquainted with the methods and materials being used in your room, we suggest that they be allowed to observe a short time before actually beginning to assume responsibility for lesson planning and teaching. At first interns should be given routine tasks such as checking papers, preparing special lessons, helping with small groups, or working with individual students.
3. When you feel the student intern is ready, give the intern responsibility for teaching selected lessons. This could be done by rotating classes taught so that every area has been covered before full responsibility is assumed. Go over lesson plans with the student intern to see that everything has been well thought out. (Refer to "Suggested sequence of student teaching responsibilities" on the next page.)
4. You and the college coordinator will determine when the student intern is ready to assume complete control and teaching of the class. You decide together whether or not s/he is more comfortable with you in or out of the room. If you do not stay in the room the entire time, you should be immediately available to the student intern if the need should arise.
5. **Please set up a regular weekly conference time with the student intern so that you may discuss any problems and share ideas for improving the teaching experience.** Do not hesitate to give constructive criticism. Feedback is essential to a positive learning experience.
6. Provide the student intern with a list of students, a seating chart, a copy of the daily schedule, fire and tornado drill procedures, and a school handbook.
7. Provide a place in the classroom, such as an extra desk, where the student intern may keep her/his personal belongings and inform the intern of any special dress code that is expected.
8. Introduce the student intern to the other people in the building, including the secretary, cafeteria personnel, and custodians.
9. Acquaint the student intern with school policies as specified in the school's handbook and share the school bulletins or announcements with the student intern.
10. Include the student intern in faculty meetings, conferences, in-service, and professional meetings as much as possible. **The student intern should become a part of the total school program.**
11. Help the student intern by providing guidance through lesson planning and teaching and by giving suggestions for improvement.
12. **Contact the College Coordinator if there is a question or concern regarding the student intern. Please keep a written record of intern absences, tardies, and early departures.**

The Student Intern

The student internship is an important part of the Teacher Education Program. As a guest in the school and member of a team, the student intern must assume responsibility for being professional in every way. There are several areas that require special attention.

Attendance

During the student internship, the intern is required to be in attendance every K-12 day, Monday through Friday, as scheduled. This includes, whenever possible, days and times that the mentor teacher is on duty or is participating in teacher in-service, parent-teacher conferences, professional meetings, etc.

While illness or emergencies may occur that cause an intern to be absent, all interns are expected to maintain a professionally appropriate attendance record in their internship classrooms. Most Arkansas public schools provide teachers with nine (9) sick days and two (2) personal days per year. Since we expect Lyon education interns to be prepared, positive professionals, the following attendance policy will be in effect:

- Absences will be limited to five (5) calendar days per semester. Additional absences could lead to dismissal from the program and a possible failing grade for the internship course.
- Two (2) late arrivals or early departures will count as one (1) absence.
- The student intern **must notify the mentor teacher and the college supervisor** at the earliest possible time **prior to the absence via telephone, email, Facebook, or text message.**
- Following the third absence, the intern will meet with his or her coordinator and receive a written reminder of the internship attendance policy.
- Following the fifth absence, the intern will meet with a college supervisor and the Director of Teacher Education to review the intern's continued participation in the internship.
- Failure to accurately report absences, late arrivals, or early departures may be viewed as a violation of the College's Honor Code and treated as such.
- **Interns must complete a minimum of 240 clock hours of internship participation each semester. (NOTE: Interns with special scheduling needs may request permission to "bank" hours in the fall semester. The request must be made in writing to the Director of Teacher Education, and decisions will be made on a case-by-case basis.)**

Schedule for Intern

Student Teacher Interns are expected to follow the schedule of the cooperating school to which they are assigned. This includes professional development, holidays, and Spring Break. Student interns are also to follow normal school day hours when making out their schedules. Generally the school day starts at 7:30-7:45 and ends at 3:30. This daily schedule may vary from school to school. Interns are expected to follow the schedule of the cooperating teacher. This includes after school meetings. **The College Supervisor must approve any change in the daily schedule.**

Dress and Grooming

The student intern is expected to follow the dress code established by the school district. As a model for young students, the student intern should be neat and well groomed. The professional appearance of the student intern will aid in identifying him/her as an authority figure. Do not eat or chew anything while teaching. Wind suits, sweats, shorts, t-shirts, flip flops and jeans **are not acceptable**. If a student intern has piercings (tongue, nose, eyebrow, and navel rings), these should be removed before going to school or school events. Tattoos should be covered by clothing.

Planning and Preparation

Careful planning and good organization are prerequisites for successful teaching. The student intern can facilitate lesson presentation by spending much preparation time in advance of actual teaching. Daily and weekly plans must be available in advance for both the mentor teacher and college supervisor to discuss.

Discipline/Classroom Management

The mentor teacher will establish a routine for classroom management and guidelines for discipline. The student intern should be conscientious about following the procedures established by the teacher. Consistency is important to maintaining a positive teaching/learning environment.

Interest in Education

Educators are often judged by the interest and enthusiasm they project. Student interns who are excited about student internship tend to motivate those with whom they work. Attendance at functions beyond the school day is often used as an indicator of interest in students as individuals. The student intern who is perceived as a warm, caring person will usually relate well to others.

Professionalism

Teaching is a profession. As a member of that profession, the student intern is expected to maintain high ethical standards. Relationships with students should be of a professional nature. The school, its personnel and students should not be discussed negatively. Statements made by school personnel, parents or teachers should be kept confidential. **The student intern needs to be flexible and open to constructive suggestions.**

As interns develop relationships with students, they should use discretion and keep a professional distance. It is **strongly** recommended that candidates not give home phone numbers and email addresses to students, nor share Facebook or other social network space with students. ALL communication with students/**minors** should be of the highest professional level.

Legal Liability

A student intern, while in the performance of his/her duties and responsibilities as a student intern, shall be legally liable for his/her own acts and conduct, and shall be afforded protection under the law, to the same extent as his/her mentor teacher(s) and other officers and employees of the school district. In the

temporary absence of the mentor teacher from the classroom and while the assigned student intern is required to remain in the classroom, the pupils thereof shall be under the direct supervision and disciplinary control of the student intern.

Student Interns as Substitute Teachers

The student internship is designed to be a mentored experience in which a novice works with an experienced professional educator who serves as a role model. The use of the student teacher as a substitute jeopardizes this priority and places the student teacher in a position of assuming undue responsibility. For these reasons **student interns should not be used as substitutes** during the internship experience. When the internship is completed, students are free to place their names on the substitute list.

Use of Corporal (Physical) Punishment

In view of the legal status of student interns, no student intern from Lyon College will be allowed to administer or witness any form of corporal punishment. If any student intern should be placed in a situation where corporal punishment is being used, the punishment must be administered by a certified teacher or administrator. Violation of this policy will result in the student intern being withdrawn from student internship.

Language Habits

Student interns should remember that they are to model standard language usage. The interns' adherence to the rules of standard usage will be reflected in their overall evaluation.

Expectation of Students

Student interns should be aware that their attitudes toward and expectations of the students they teach have a strong impact on how well those students perform. Student interns should refrain from making negative statements about the students they teach.

Social Networking Sites

Facebook, Xanga, MySpace and any other social networking sites, websites, or blogs in which you participate should be reviewed for any unprofessional content. Be careful not to post content that is in violation of Lyon College policy or the policy of the school district to which you are assigned.

Suggestions to Assure Success in the Internship

1. The internship will consist of **8 credit hours with a minimum of 480 clock hours (240 per semester)**. Interns will participate in approximately 300 hours of actual teaching, which includes classroom instruction for individuals, testing & tutoring, and work with small groups. (Time spent grading papers and planning may not be counted as internship clock hours.) One credit hour will be earned for every 60 clock hours of internship. **Interns should complete a minimum of 240 clock hours per semester.**
2. Confirm your source of transportation. Have your own car or share rides with one of the other students and plan to help with expenses. Do not rely on the teachers of the district for transportation.
3. If you live on campus, confer with the Dean of Students about arrangements for students eating lunch off campus or ask for a sack lunch from the College cafeteria. Do not charge lunches at school unless that is the district policy.
4. Follow school attendance policies for certified personnel. Leave for school early. Allow time for emergencies so that you will not find yourself rushing in breathlessly at the last minute. **Be punctual.**
5. Do not ask to leave school before you are scheduled to leave unless it is absolutely essential. **Assist the classroom teacher in after-school responsibilities as appropriate.**
6. **Keep outside activities to a minimum.** Save your energy for lesson preparation and planning. Get plenty of sleep so you will have the necessary vitality.
7. Notify your mentor teacher and college coordinator when you must be absent. **(REQUIRED)**
8. Stay home when you are ill. It is not wise to expose others to unnecessary illness.
9. Prepare thorough lesson plans before you teach. Ask your mentor teacher to go over them to be sure you have done adequate planning.
10. Study carefully. **KNOW the material you will be teaching** as well as the material that precedes and follows the lesson.
11. Make your presentations as interesting as possible. Be alive. Speak with authority.
12. Adhere to the mentor teacher's expectations for his/her students.
13. Be firm, direct, and positive with students.
14. Try to attend activities that are not a part of the school day. When possible, get to know families of the students. Teaching is much more than lecturing and grading papers.
15. Use school materials sparingly.
16. TAKE YOUR WORK SERIOUSLY, BUT KEEP A SENSE OF HUMOR!

Completion of Program and Licensure

To complete the program candidates must

- successfully complete the student internship
- complete the exit interview (see questions below)
- turn in the cumulative e-portfolio
- take the appropriate Praxis II exams
- complete all coursework for graduation
- file an intent to graduate form
- make a final check with advisor and/or Director of Teacher Education to assure all requirements have been met

Obtaining a License to Teach

Each candidate completing a BA with a major or concentration in Education qualifies for a teaching license in the state of Arkansas in his or her teaching field. The license is valid for one to three years and is replaced by a five year permanent license when the Praxis III assessment is successfully completed.

Any candidate who wishes to license in another state is advised to obtain his or her Arkansas license and then apply for a license through the other state's education agency. Many states have a reciprocal agreement with Arkansas and will merely require an application in order to issue a license. Other states require applicants to meet the initial licensing requirements, including exams and/or specific course work. In these cases, the other state usually issues a temporary license (1 year) until the criteria have been met.

To obtain your Arkansas License

- Complete licensure form obtained from Director of Teacher Education
- Make sure your background check is current and has been submitted to the ADE
- Return licensure form to the Director of Teacher Education

Sample EXIT INTERVIEW Questions

1. What do you consider to be the **strongest** aspect of the Teacher Education Program?
2. What do you consider to be the **weakest** aspect of the Teacher education Program?
3. What aspect(s) of the Teacher Education program should be changed?
4. What aspects of the Teacher Education Program should not be changed?
5. What suggestions do you have for improving the Teacher Education Program?
6. Do you have any additional comments about the Teacher Education Program?

Note: You will complete an exit questionnaire online, and your licensure application will be filed after the Exit Interview is completed.

THE FRAMEWORK FOR TEACHING MODEL

The State of Arkansas has adopted Charlotte Danielson's FRAMEWORK FOR TEACHING model of supervision and evaluation to provide support to novice teachers. The outcomes of Lyon College's teacher preparation program are aligned with FRAMEWORK expectations. As a result, the Coordinator's Evaluation Form reflects the four FRAMEWORK domains.

FRAMEWORK Domain Descriptions

Domain 1: Planning and Preparation

Domain 1 describes how the teacher organizes for classroom instruction. Teachers must transform the curriculum so that it is accessible to their students. They must have a deep knowledge of the content itself and of how to design instruction that is appropriate to the diverse learners in the classroom.

Domain 2: The Classroom Environment

Domain 2 focuses on the aspects of the classroom that are conducive to learning, not as associated with the learning of any particular content, but rather as they set the stage for all learning. The classroom environment is critical to promoting learning and making the teacher's exercise of instructional skills possible.

Domain 3: Instruction

Domain 3 describes how teachers bring complex content to life for their students and engage them in learning through skillful classroom interactions, integrated assessment strategies, and teacher flexibility and responsiveness.

Domain 4: Professional Responsibilities

Domain 4 focuses on the professional dispositions associated with teaching. Teachers demonstrate their commitment to high standards through self-reflection, attention to responsibility, and strong communication and collaboration with parents and colleagues.

Component 1a: Demonstrating Knowledge of Content and Pedagogy

Component 1b: Demonstrating Knowledge of Students

Grievances

Lyon College suggests that every effort be made to resolve conflict collaboratively. Occasionally, differences or disagreements can occur during the internship. Each case will be handled individually based on the specific situation. In general, when minor conflicts arise, the intern or cooperating mentor teacher is encouraged to attempt resolution in the following ways:

- Discuss your concern(s) with the individual and give him/her a couple of days to respond.
- If you are not satisfied with the response, contact the college supervisor to make an appointment for a conference to discuss the issue(s).
- If the situation is not resolved following this conference, the intern or cooperating mentor teacher may contact the Director of Teacher Education and file a formal complaint in writing. The Director of Teacher Education will respond to the complaint in writing.
- If still unsatisfied, the intern or cooperating mentor teacher may appeal to the LATEC committee for a review of the issue(s).

Unacceptable Internship Performance

The cooperating teacher should notify the Lyon coordinator as early as possible when an intern is not performing to expectations. The coordinator will work with the mentor teacher on an individual basis to specify areas that need improvement and strategies to be implemented. In general, the following options will be considered:

- The coordinator will be notified regarding the unacceptable quality of the intern's performance.
- The intern will be notified by the coordinator regarding problems that need to be addressed.
- When feasible, the coordinator, cooperating teacher, and intern will develop a teaching improvement plan (**TIP**) that includes
 - areas for improvement,
 - specific outcomes desired,
 - a timeline or specific deadlines, and
 - dates and signatures of the intern, the coordinator, and the cooperating teacher.
- A copy of this plan will be placed in the intern's file. If performance does not improve or if the intern does not agree to this plan, the intern may be dismissed from the internship.

Termination of Internship Placements

Possible causes for termination of an intern's placement may include, but are not limited to, the following concerns:

- the cooperating teacher or principal requests termination,
- unprofessional or unethical behavior by the intern in the placement setting,
- evidence of lack of sensitivity to multicultural situations in the setting,
- excessive absenteeism, tardiness, or failure to comply with established policies,
- failure to submit required lesson plans and other assignments in a timely manner,
- inappropriate interpersonal conduct with students, staff, faculty, and administrators,
- inappropriate attitude or hostility, and/or
- breach of confidentiality concerning a student.

Immediate termination may result if the safety of either the intern or any person at the partner school is compromised by the placement. A decision for immediate termination is made by the Director of Teacher Education, in consultation with the college supervisor and the appropriate personnel at the partner school. Any concerns regarding safety should be brought immediately to the attention of the college supervisor and/or the Director of Teacher Education.

ARKANSAS DEPARTMENT OF EDUCATION RULES GOVERNING THE CODE OF ETHICS FOR ARKANSAS EDUCATORS June 9, 2008

1.00 Title

- 1.01 These rules shall be known as the Arkansas State Board of Education Rules Governing the Code of Ethics for Arkansas Educators.

2.00 Regulatory Authority

- 2.01 These rules are promulgated pursuant to the State Board of Education's authority under Ark. Code Ann. §§ 6-11-105, 6-17-401, 6-17-410, 6-17-422 (Act 846 of 2007) and 25-15-201 et seq.

These values are the ethical premises for the Standards of professional behavior and ethical decision-making established in this *Code of Ethics for Arkansas Educators*. By establishing Standards of ethical conduct, this code promotes the health, safety, and general welfare of students and educators and ensures the citizens of Arkansas a degree of accountability within the education profession.

- 4.01 **Complaint** is any validated, written and signed statement from the Arkansas Department of Education, local school board, the Arkansas State Board of Education, or public school superintendent of this state filed with the Professional Licensure Standards Board alleging that an educator has breached one or more of the Standards in the Code of Ethics for Educators.

- 4.02 **Conviction** includes a plea of guilty or a plea of *no lo contend ere*, or a finding or verdict of guilty, regardless of whether an appeal of the conviction has been sought, or a criminal conviction has been sealed or expunged; a situation where first offender treatment without adjudication of guilt pursuant to the charge was granted; and a situation where an adjudication of guilt or sentence was otherwise withheld or not entered on the charge or the charge was otherwise disposed of in a similar manner in any jurisdiction.
- 4.03 **Denial** is the refusal to grant a teaching license to an applicant for a teaching license.

Dispositions are guided by beliefs and attitudes related to values such as caring, fairness, honesty, responsibility and social justice.
- 4.05 **Educator** is a teacher, school or school system administrator or other education personnel who has been issued a teaching license by the Arkansas State Board of Education. For the purposes of the Code, *educator* **also refers to a licensed student intern,**

- 4.07 **Probation** is the placing of conditions, requirements or circumstances on the status of a teaching license for a period of time established by the Arkansas State Board of Education. - 4.08 **Reprimand** is a written admonishment from the Arkansas State Board of Education to the license holder for his or her conduct. The written reprimand cautions that further unethical conduct will lead to a more severe action and shall become a permanent entry in the licensure file of the educator and is associated with a monetary fine of the educator.
- 4.09 **Revocation** is the permanent invalidation of any teaching license held by the educator.
- 4.10 **School-sponsored activity** is any event or activity sponsored by the school or school system which includes but is not limited to athletic events, booster clubs, parent-teacher organizations, or any activity designed to enhance the school curriculum (i.e., foreign language trips, etc.) whether on school-campus or not.
